For each of the following statements please indicate your response using the following scale:
1 = strongly disagree, 2 = disagree, 3 = neither agree or disagree, 4 = agree, 5 = strongly agree

It has been helpful liaising with my supervisor to guide me on my research path.  1  2  3  4  5

This course is helping me to identify and locate relevant source material including legislation, case law, government documents and scholarly texts to further my knowledge.  1  2  3  4  5

My capacity for effective research and my analytical skills are improving through the work I have done in this course.  1  2  3  4  5

I prepare adequately in advance to be able to contribute effectively to each week’s classroom discussions.  1  2  3  4  5

I challenge presenters (lecturers and other students) with my questions.  1  2  3  4  5

I find the level of legal reasoning and argument in the open forum to be intellectually stimulating.  1  2  3  4  5

The individual classes involve too much watching and listening and should include more student activities.  1  2  3  4  5

I value the questions, feedback and the written review students provide to the presenter.  1  2  3  4  5

I have/will use these to reflect on my research and my presentation skills.  1  2  3  4  5

I learn as much from fellow students’ delivery as I would if the lecturers were delivering the content.  1  2  3  4  5

The workload for this course is too high compared to other elective courses.  1  2  3  4  5
The course and the assessment focus too much on my individual research topic. I would prefer to have broader access to the topics of migrant smuggling and human trafficking and spend less time and work on my individual research project.

The final research paper and its possible publication in a peer-review journal is important to me for my future career.

In addition to the presentation (30 mins, 40%) and research paper (7000 words, 60%), should the course include additional pieces of assessment? YES NO

If yes, what should it be? Outline the task and assessment weighting, for example:

- Submission of a research outline (10%)
- Seminar report with a brief reflection on all briefings and presentations (10%)
- Other.
