1. STUDENT FEEDBACK ABOUT COURSE EXPERIENCE

1.9) What were the best aspects of this course?

- Relevant and interesting.
- The balance of theory and practical application was perfect.
- The course was great! Loved the weekly videos!
- The emphasis on practical learning helped me transition smoothly into the workplace.
- This course was intellectually stimulating and enhanced my understanding of the field of study as a whole. Loved it!
- This course was really interesting.
What improvements would you suggest?

- A new textbook with relevant examples would have really helped me see the concepts of the course in real life.
- Assessment requirements were not clear.
- More time in class for discussion.
- Need for group meetings/work/consensus adds too much logistical difficulty in addition to an intensive course and full-time work.
- Publish lecture notes at least a day before the lecture (if possible).
- The online weekly tests should be worth more of our overall grade! These were great, but they were not worth as much as I thought they should have been.

This course was really great though!
