

ITALI MASTERCLASS on CLASSROOM VIDEO (John Harrison)

URLS for resources cited in the masterclass on 7b April, 2017.

1. Multi-media software production packages and training offered at UQ

One of the things I neglected to mention in the masterclass was that here at UQ we have an excellent e-learning support team, led by Ailsa Dickie.

Ailsa and her team run regular workshops, including sessions on software packages such as iSpring which integrate pictures, sound, video and PowerPoint.

For additional information, refer to the [In-class active learning](#) tool webpage. If you would like a personal tutorial on using active learning tools email help@learn.uq.edu.au with "ELSS - Nomination" in the subject line.

For more information on the eLearning Solutions Service, visit the [eLearning Solutions Service](#) webpage.

2. Microsoft Movie Maker

Here is the official Microsoft movie maker page:

6. Lynda

While I have not used any of the Lynda material, I looked at the website after the masterclass and it looks very exciting. Here is the URL:

7. Dragon Dictate by Nuance

As mentioned in the masterclass I use Dragon Dictate speech to text software for script writing. Here is the URL. The cost is about \$250. I prefer to use a proprietary application rather than the more generic applications, because Dragon is easy to train, so long as you speak clearly and distinctly.
