

Build trust. Together.

Shared trust, shared boundaries

Minimal guardrails for AI use

Staff and students may use UQ's authorised AI systems (e.g. Copilot) with permitted materials and in conjunction with human judgment.

We protect personal and student data

Do not upload personal data to public AI tools.

We protect secure assessment materials

Do not upload unpublished, secure or sensitive assessment materials to public AI tools.

We keep humans accountable

Do not use AI as the decision-maker. Authorised UQ educators remain accountable for assessment and student outcomes

We respect Indigenous knowledge governance

Do not generate, reproduce or represent Indigenous knowledge, culture, customs or traditions without appropriate authority, consent and governance.

We respect copyright, IP, confidentiality and licensing

Do not breach copyright, licensing, privacy, confidentiality, UQ or student IP, or cultural and intellectual sovereignty obligations
