As a developing teacher, or if you are new to UQ, you want to know how you can progress your career and develop your teaching profile.

At the Institute for Teaching and Learning Innovation (ITaLI), we partner with multiple stakeholders including faculties and schools, to empower higher education excellence at The University of Queensland (UQ).

Our main focus is to continually improve teaching and learning through initiatives that lead to positive, effective change across the University.

Our core services include professional learning activities, quality assurance and digital resource development which support the conversion of the University’s vision for the student experience into reality.

Our eLearning team is responsible for the University’s central eLearning services. The team offers both teaching and technical advice on eLearning tools.

We invite you to find out more about our:
- workshops, events and orientation programs,
- coaching and monitoring programs,
- communities of practice,
- funding and recognition opportunities,
- online resources.

Find out more: itali.uq.edu.au
**Teaching@UQ program**
itali.uq.edu.au/teaching-at-uq

Introduction to teaching and learning at UQ for lecturers and course coordinators
- Essential induction program if you are new to UQ.
- Four 4-hour sessions throughout the semester (with the flexibility to participate in subsequent sessions if you miss one).
